TALENT Clearances for Hycon Consultants to AQUATONE

REF : SAFC 11677, dated 17 December 1956

25X1A9a

1. This memo will confirm my verbal report to  on 18 December 1956 of TALENT support clearances accorded to Hycon consultants to the Project AQUATONE whose names are listed below:

 25X1A5a1

2. The clearances have been issued in order that the individuals might review certain film, resulting from the Project AQUATONE, which it is intended will be titled with the CHESS indicator and handled within the TALENT Control System or specific film already titled CHESS and already handled within the TALENT Control System.

3. These Consultants have been granted TALENT Clearances at the request of the Project AQUATONE in order that they have a definite need to review processed negatives so that "on the spot" adjustments will be conducted to correct malfunctions in camera equipment.

25X1A9a 4. With reference to the request for clearance for  25X1A9a  the Director of Security/CIA who is charged with the evaluations for the CIA clearances for the TALENT Control System has advised that a re-evaluation will have to be made of subject's security file prior to the issuance of a TALENT Clearance. Immediately upon receipt of information as to  cleanability you will promptly be notified.
